WE NEED:

- High-quality PA system to accommodate the venue size
- A stage at least 6 meters by 4 meters
- CAT cable to connect our FOH mix to the stagebox
- A dedicated FOH space for our mixing console with the connection to the main house mix via XLR main out or AES/EBU
- 9 quality high microphone stands (with a 3/8" thread)
- 230V power outlets as per stageplan
- Optional equipment: Drum riser 3m x 2m or 4m x 2m if possible, to accommodate both rhythmic sections

THE BAND BRINGS:

- Monitor mixer with splitted inputs
- FOH mixer with stagebox
- Microphones with clamps (with a 3/8" thread)
- Di boxes
- XLR, jack cables
